Catalyst Academies Trust

RISK ASSESSMENT FORM

Form Number: HSF003 Version: 1.0 Date: Jan 2013 Procedure: HSP 5.0

Location/Site: Catalyst Schools - Before School Club			Date of Assessment: 26 th August 2020 November 2020 September 2021	Assessor(s): Sam Oxley Nicola Barrett	Reference: Benyon Primary School		
Activity/Task/ Situation	What are the hazards?	Who might be harmed and how?	What are you already doing?	What further action is necessary?	Action by whom	Action by when	Completed
Club	Resulting in direct transmission of the virus	Children Staff Families Wider Community	 Children to be collected from the front gate by a member of staff. Any children resisting coming into club should be dealt with by parents. On arrival all children to be sent to wash/sanitise hands. Rules re-visited and modelled throughout the session and linked to school behaviour system – lots of praise for adherence and sanctions for non-compliance. 				
toilets and poor hygiene	resulting in direct and indirect transmission of the virus		 One child allowed to go to toilet at a time Allocated toilets that are used for their club. Children reminded of good hand hygiene regularly and soap is available at all sinks. Extra Signs in toilet re washing hands 				
waiting to enter front office in morning	resulting in direct transmission of the virus		 Allocated entrance for children to arrive and leave from the main reception office entrance. Signage for parents and children displayed outside the front office entrance. 				
Children/ Staff falling ill and showing symptoms in school	resulting in direct transmission of the virus		. Members of the senior leadership team and CEO of Catalyst Academies Trust will continually check for further updates and amend the risk assessment accordingly and in line with new guidance. 2. If any child displays symptoms, parents will be immediately contacted to take their child home. Any child waiting to be collected will be in a room with windows and doors that are opened. Staff members showing symptoms will be sent home immediately.				

3.1f child who is displaying symptoms uses the tollets, these will be thoroughly cleaned with disinfectant before anyone else uses the area. 4. The person who supervised the child, will do the cleaning to avoid unnecessary exposure, waring PPE as required or necessary. 5. A staff member will remain behind a closed door if this is at all possible. Where this is not possible, staff will wear PPE required and will stay as far away as possible. 6. If a child or staff member displays symptoms they will need to take a PCR test and remain at home until the results are known. In the event of a positive test they must follow current government guidance. If the test is negative and 48hrs post symptoms they will see the symptoms they will remember receives a positive test result, then Public Health England and Local Authority will be informed by email. 9. Close contacts – the school will apply the following guidance Any member of staff not double jabbed to isolate for 10 days All staff members should jabbed can remain in work unless they display symptoms. All children can remain in school unless they display symptoms. 1 Testing of staff who have had contact with ta positive case will be a priority and they will be required to take a PCR test. 1. Deep cleaning of the area where the child or staff member was working will be carried out. Any child waiting to be collected will be in a room with windows and doors that are a opened. 1. Test and Trace procedure is followed.		
disinfectant before anyone else uses the area. 4. The person who supervised the child, will do the cleaning to avoid unnecessary exposure, wearing PFE as required or necessary. 5. A staff member will remain behind a closed door if this is at all possible. Where this is not possible, staff will wear PPE required and will stay as far away as possible. 6. If a child or staff member displays symptoms they will need to take a PCR test and remain at home until the results are known. In the event of a positive test they must follow current government guidance. If the test is negative and 48hrs post symptoms they will seed to take a pcompton they may return to work/ school 8. If a child or staff member receives a positive test result, then Public Health England and Local Authority will be informed by email. 9. Close contacts – the school will apply the following guidance Any member of staff not double jabbed to isolate for 10 days • All staff members double jabbed can remain in work unless they display symptoms • All children can remain in school unless they display symptoms • Testing of staff who have had contact with ta positive cast rewill be a priority and they will be required to take a PCR test. 10. Deep cleaning of the area where the child or staff member was working will be carried out. Any child waiting to be collected will be in a room with windows and doors that are opened.		
do the cleaning to avoid unmeressary exposure, wearing PPE as required or necessary. 5. A staff member will remain behind a closed door if this is at all possible. Where this is not possible, staff will wear PPE required and will stay as far away as possible. 6. If a child or staff member displays symptoms they will need to take a PCR test and remain a thome until the results are known. In the event of a positive test they must follow current government guidance. If the test is negative and 48hrs post symptoms they may return to work/ school 8.
